Subject: employment

I believe if we are going to sell our natural resources (BP AMOCO) and allow Netscape and AOL to merge and McDonnell Douglas and Boeing then I believe the government is wasting my money. Which is really bad since after 17 years with Boeing (MDC) I will be laid off this January 25, 2002. If the government want something to do then help me feed my family.

Best Regards,

Robert J. Sharp

Principal Engineer
Structures 747/Mod.
The Boeing Company
